

Promoting Alternative Fertilizers, Empowering Indian Agriculture

EN Team

The Union Cabinet recently announced a comprehensive package worth Rs. 3,70,000 crore dedicated to the welfare of farmers. This landmark package comprises four key components that promise to empower farmers, strengthen the agricultural sector, and secure a prosperous future for all. In this interview with Minister for Chemicals and Fertilizers, Dr. Mansukh Mandaviya following the announcement of the package on 28 June, EN team explores the implementation and implications of this initiative and the other steps taken by the central government to promote the usage of organic fertilizers, reduce the overdependence on chemical fertilizers, and mitigate their adverse effects on soil quality and the environment.

Q: Sir, how significant is the implementation of the recently unveiled Rs. 3,70,000 crore package for farmers in the advancement of food grain production in India, while concurrently safeguarding food security and augmenting the income of our farming community?

A: First and foremost, let me extend my heartfelt congratulations to the Hon'ble Prime Minister Shri Narendra Modi for this welfare measure. The Rs. 3,70,000 crore package dedicated to the welfare of our farmers comprises four essential components that underscore the commitment towards uplifting the agricultural sector. The first component involves the

provision of three years' guaranteed subsidy on urea - an essential fertilizer widely used by our farmers. This measure aims to ensure seamless access and utilization of urea without any confusion or uncertainty about subsidy. The second component is the 'PM-PRANAM' (Promotion of Alternative Nutrients for Agriculture Management) Scheme, which promotes the usage of alternative fertilizers to reduce reliance on chemical fertilizers. States that reduce their chemical fertilizer

consumption will receive 50% of the saved subsidy, leading to financial benefits and the adoption of sustainable agricultural practices. The third component introduces the 'Market Development Assistance Scheme' and the establishment of bio-gas plants under the GOBARdhan scheme. These plants convert cow dung into Compressed Natural Gas (CNG) and the residue, known as slurry, serves as an effective organic fertilizer. A subsidy of Rs. 1500 per metric tonne has been allocated to support the market availability of this organic fertilizer. For this purpose, a provision of Rs. 1,451 crore has been made to establish biogas plants in the country. The fourth component introduces the latest grade of urea called Urea Gold (Sulphur Coated Urea) which is more effective. The combination of these four components aims to enhance farmers' livelihoods, improve soil health, and boost production capacities. The provision of Rs. 3,70,000 crore package entails all these four components. It sets the stage for a brighter future, strengthening the agricultural sector and improving the lives of our farming community.

Q: The global prices of fertilizers, particularly urea, have witnessed a substantial increase in recent years. To alleviate the burden of these rising costs on farmers, what efforts is the government making to provide relief? Specifically, what steps have been taken or will be taken under the urea subsidy scheme

Job Opportunities in Sustainable Fertilizer Practices

Ranjana Kumari

Contemporary farming methods heavily depend on state-of-the-art technologies, and the fertilizer sector follows suit. Within this industry, there exists a multitude of career paths that span across various disciplines. On the research and development front, scientists tirelessly explore innovative methods to create fertilizers that optimise plant nutrition and boost crop yields. They analyse soil composition, plant requirements, and nutrient dynamics to formulate specialised fertilizers tailored to specific crops and regions. Furthermore, engineers design advanced manufacturing processes and equipment, ensuring the efficient production and distribution of these fertilizers on a large scale. Environmental experts play a crucial role in developing sustainable practices and minimising the ecological impact of fertilizer use. They devise strategies to reduce nutrient

runoff and soil degradation, safeguarding water quality and preserving biodiversity.

The government of India has strived to make agriculture more sustainable and self-reliant while ensuring the wellbeing and prosperity of farmers. Promoting usage of alternative fertilizers is a key component of this strategy. Recently, the Union Cabinet approved some significant strategies including the PM-

PRANAM scheme, the introduction of Urea Gold, and subsidies for organic manure. These schemes not only hold immense potential for transforming the agricultural landscape but also pave the way

for new career options. In this article, we will explore the existing and possible career opportunities that the provisions of these schemes will generate.

The PM-PRANAM scheme aims to incentivise states to reduce their reliance on chemical fertilizers and promote alternative fertilizers. This presents an excellent opportunity for professionals in the field of sustainable agriculture and organic farming. Careers such as agricultural consultants, agronomists, and soil scientists will be in demand as they guide farmers in adopting balanced fertilizer practices and implementing organic farming techniques. Additionally, there will be a need for research and development professionals to

Job Opportunities in Sustainable Fertilizer Practices

create innovative organic fertilizers that cater to specific soil requirements.

Continuing the urea subsidy scheme for three years provides stability and affordability to farmers. This decision will have a positive impact on the careers of agricultural economists, policymakers, and agricultural extension officers who work towards ensuring the availability and affordability of fertilizers. Additionally, professionals specialising in logistics and supply chain management will play a crucial role in efficiently distributing urea to farmers across the country.

The approval of sulphur-coated urea, known as Urea Gold, presents a significant opportunity to enhance soil health and agricultural productivity. With its higher nitrogen absorption efficiency, Urea Gold can significantly reduce input costs for farmers. This innovation opens up career prospects for agricultural engineers and scientists who can develop and improve the production processes for coated urea. Professionals in the field of agricultural research and development will also contribute to the formulation of customised urea blends that address specific soil deficiencies.

The subsidy allocated for organic manure under the Market Development Assistance (MDA) scheme aims to boost the marketing of organic fertilizers. This initiative creates career opportunities for professionals in marketing, sales, and distribution of organic fertilizers. Furthermore, there will be a growing demand for professionals with expertise in waste management, biogas production, and organic waste conversion technologies to support the production of organic manure. The setting up of new biogas plants will also generate opportunities for professionals required to successfully run a company, its production units and market the produce.

As these initiatives are implemented, professionals from diverse fields will have the chance to contribute to the growth and development of the agricultural sector while ensuring environmental sustainability. This transformative period offers individuals the chance to make a meaningful impact on India's agricultural landscape and build rewarding careers centered around sustainable practices.

Chemistry: Unleashing the Power of Molecules

In the ever-evolving fertilizer industry, chemists play a pivotal role in harnessing the potential of molecules to revolutionise agricultural practices. Chemists in the fertilizer industry dive into the intricate world of nutrients, meticulously analysing soil composition, plant requirements, and environmental sustainability factors. By unraveling the complex interactions between these elements, they strive to identify the optimal nutrient balance that promotes healthy plant growth and maximises crop yields. Through their expertise, they aim to ensure that crops receive precisely what they need, at the right time and in the right proportions, minimising waste and increasing agricultural productivity. One of the key trends in the fertilizer industry is the development of innovative formulations. Chemists explore novel combinations of elements and compounds, blending traditional nutrients with micronutrients

and bio-stimulants to create tailored fertilizers. By leveraging technology and data, they can precisely calibrate fertilizer application, targeting specific areas within a field based on soil variations and crop needs. Moreover, chemists in the fertilizer industry are acutely aware of the environmental impact of fertilizer use. They actively seek eco-friendly alternatives and sustainable practices to minimise waste and reduce environmental harm. By developing slow-release fertilizers, they ensure a gradual nutrient release, reducing the risk of nutrient runoff and pollution. Additionally, chemists explore ways to enhance fertilizer efficiency, enabling plants to absorb nutrients more effectively and minimising the quantity of fertilizers needed. As we navigate a world with increasing food demand and environmental challenges, these chemists pave the way for more efficient and sustainable agricultural practices, ensuring a brighter future for both farming and the planet.

Agronomist: Enhancing Crop Productivity

Agronomists play a critical role in enhancing crop productivity through the transition to sustainable fertilizers in agriculture. They contribute by optimising nutrient management practices, guiding farmers in the selection of suitable sustainable fertilizers, advising on proper fertilizer application techniques, managing soil health, integrating pest management strategies, conducting research and education, and providing ongoing monitoring and assessment. By considering factors such as soil health, crop rotation, and cover cropping, agronomists ensure precise and environmentally friendly nutrient applications. They help farmers make informed decisions that balance crop nutrition requirements with environmental stewardship, minimizing nutrient losses and promoting sustainable agriculture. Agronomists also contribute to soil health improvement, pest management, research, education, and continuous evaluation of fertilizer effectiveness, enabling farmers to optimize fertilizer use and adapt management strategies for improved crop performance.

Geology: Unearthing Valuable Resources

Geologists can collaborate with agronomists, soil scientists, and other experts to integrate geological knowledge into soil management strategies. They can provide insights into the geological factors influencing soil formation, nutrient availability, and the suitability of different fertilizers. This collaboration ensures a multidisciplinary approach to sustainable fertilizer use and soil health management. They can create maps that provide valuable information about mineral content, organic matter, pH levels, and other soil properties that influence nutrient availability and soil health in an area. This mapping helps identify potential sources of natural fertilizers and amendments. Geologists can also investigate the geological factors that affect the efficacy and performance of sustainable fertilizers, leading to the development of improved formulations and techniques. Overall, by leveraging their understanding of the Earth's composition, geological

processes, and mineral resources, geologists can contribute valuable insights and expertise to support the transition to sustainable fertilizers in agriculture.

Environmental Engineering and Stewardship

The approved schemes and initiatives provide a favorable environment for environmental scientists to contribute to sustainable agriculture, soil health improvement, and organic farming practices. Environmental scientists can work on developing new formulations of fertilizers, studying the impact of these schemes on soil health and agricultural productivity and finding innovative ways to promote sustainable agriculture. They can find work as consultants for agricultural organisations, and government agencies. Environmental scientists can contribute to policy development related to sustainable agriculture and environmental conservation. They can work with government departments and organisations to formulate guidelines, regulations, and incentive programs to promote the use of alternative fertilizers, enhance soil health, and support organic farming practices. They can also participate in monitoring and evaluation activities to assess the impact of these policies and programs.

Meanwhile, the implementation of new schemes and the introduction of Urea Gold may have environmental implications. Environmental scientists can be involved in conducting environmental impact assessments to evaluate the potential effects on soil, water, air quality, and biodiversity. They can provide recommendations for mitigating negative impacts and ensuring sustainable agricultural practices. They can also work in academic institutions, agricultural extension services, and non-governmental organizations to develop curricula, conduct training workshops, and deliver outreach programs to farmers and stakeholders.

Moreover, with the promotion of organic manure and the market development assistance for organic fertilizers, environmental scientists can explore career opportunities in the development and management of sustainable businesses. They can be involved in the production, marketing, and quality assurance of organic fertilizers and by-products from biogas or compressed biogas plants.

Analytics: Transforming Data into Actionable Insights

Data scientists play a critical role by analysing agricultural data to uncover trends and patterns, enabling evidence-based decision-making. Using predictive analytics, they forecast crop yields and fertilizer requirements, aiding farmers in optimising their practices. By developing optimisation models, data scientists recommend appropriate fertilizer compositions and dosages, ensuring efficient resource utilisation. They also design monitoring systems to evaluate the impact of schemes on soil health and productivity, supporting informed policy development. Data scientists excel in precision agriculture, leveraging real-time data to guide farmers in precise application of resources. Their expertise enhances the effectiveness of sustainable agricultural practices, enabling

environmental conservation and improved productivity. Through their data-driven insights, data scientists help create a more resilient and efficient agricultural sector, benefiting both the environment and farmers' livelihoods.

Genetics: Pioneering Fertilizer Technology

Genetic engineers have a vital role in implementing the schemes and sustaining the usage of bio and organic fertilizers. Firstly, genetic engineers can develop crop varieties that are more resilient to pests, diseases, and environmental stresses. By doing so, they reduce the dependence on chemical fertilizers, encouraging the use of bio and organic alternatives. Through genetic modification, engineers can improve the efficiency of nitrogen fixation, reducing the need for synthetic nitrogen fertilizers. Additionally, by engineering beneficial microbes, they enhance nutrient cycling, nitrogen fixation, and organic matter decomposition, making bio and organic fertilizers more effective. Furthermore, they contribute to the development of biofertilizers by optimising beneficial microbial strains. By modifying these microbes, genetic engineers improve their performance, adaptability, and compatibility with different crops and soil conditions.

Mechanical and Industrial Engineering: Revolutionising Farm Equipment

The future of farming equipment is constantly evolving. Mechanical and industrial engineers in the fertilizer industry embrace cutting-edge technologies and seek innovative solutions. They design and improve machinery and equipment used in fertilizer production, processing, and application. These engineers work on projects such as the development of precision spreaders, automated blending systems, and advanced machinery for fertilizer application. By revolutionizing farm equipment, they increase efficiency, reduce labor requirements, and enhance the overall effectiveness of fertilizer utilization.

Software Development: Enabling Precision Agriculture

As precision agriculture becomes more prevalent, farmers require intuitive tools to interact with advanced technologies. Software developers in the fertilizer industry create user-friendly interfaces and applications that empower farmers to utilize precision farming techniques effectively. They work closely with agronomists and engineers to develop software solutions for data collection, analysis, and management. These professionals also contribute to the development of automated systems, including sensor networks and control algorithms, that enable precise fertilizer application based on real-time data. By bridging the gap between technology and practical implementation, software developers facilitate the adoption of cutting-edge practices in the fertilizer industry.

Robotics: Automating Fertilizer Production and Distribution

The future of the fertilizer industry may involve autonomous machines capable of

Vacancy Circular

Filling up of one post of PT & Sports Officer (Group "B", Gazetted, Non-Ministerial) on deputation (Including short term contract) basis.

1. Applications are invited for filling up of one post of PT & Sports Officer (Group "B", Gazetted, Non-Ministerial) Level-07 (Pre-revised PB-2, 9300-34800 + Grade Pay 4600) in Indira Gandhi National Forest Academy, Dehradun on deputation (including short term contract) basis.

2. **Eligibility Condition :-** Officers under the Central or State Government/Union Territories/Universities, autonomous or statutory organisations.

(i) Holding analogous posts on regular basis in the parent cadre or department; Or

(ii) With 05 years regular service in Level- 06 (pre-revised Pay Band PB-2, 9300-34800 + Grade Pay 4200) rendered after appointment thereto on a regular basis or equivalent in the parent cadre/department.

3. Education and other Qualification

Essential: A. (i) A degree from a recognized University;

(ii) Diploma in Physical Education from a recognized University/Institution; **(iii)** Two years experience in imparting physical education in a recognized Institution; or

B. (i) A degree in physical education from a recognized University/Institution; **(ii)** Two years experience in imparting physical education in a recognized Institution.

4. **Age Limit-** 56 years

5. **Period of Deputation** - 03 years

6. The complete details of education & other qualifications, application proforma and other detailed conditions may please be see & downloaded from Academy website www.ignfa.gov.in.

No. AIIMS-BLS(B-I)(02)(05)(Vol-II)/21-1460

11 July, 2023

Corrigendum

This is with reference to advertisement no. AIIMS-BLS(B-I)(2)(5)(Vol.-II)/21-1052 dated 14th June 2023 and Corrigendum No. AIIMS-BLS(B-I)(2)(5)(Vol.-II)/21-1255 dated 30th June 2023 for faculty posts at AIIMS Bilaspur H.P.

Following points of Corrigendum is hereby amended with the approval of the Competent Authority: -

Refer to Corrigendum even no. 1255 Para no. 2 In this regard, it is to be noted that if suitable candidate(s) is (are) not found for the posts of Additional Professor/Associate Professor in the departments mentioned below, the post may be filled up as Assistant Professor in their respective category as advertised. Therefore, candidates having eligibility for Assistant Professor may also apply in the below mentioned departments: -

Sr. No.	Specialty	Post	Total	UR	EWS	SC	ST	OBC
1.	Anaesthesia	Additional Professor	1	-	-	-	-	1
2.	Burn and Plastic Surgery	Associate Professor	1	-	-	-	-	1
3.	Forensic Medicine & Toxicology	Additional Professor	1	-	-	-	-	1
4.	Transfusion Medicine	Associate Professor	1	-	-	1	-	-

Should be read as

If suitable candidate(s) is (are) not found for the posts of Additional Professor/Associate Professor, these posts will be filled up by lower cadre in their respective category as advertised in Corrigendum. For example, post of Additional Professor (OBC) in Department of Anaesthesia. As such candidates having eligibility for lower cadre (Assistant Professor) may also apply in Departments which are mentioned below. The post of Professor in a Department shall not be downgraded and will not be filled by lower cadre. It is further clarified that downgrading of Additional & Associate Professor post shall be done and be filled at the level of Assistant Professor as a temporary measure. Applicants who wish to apply against the downgraded post must indicate the same in their application form.

Sr. No.	Specialty	Post	Total	UR	EWS	SC	ST	OBC
1.	Anaesthesia	Additional Professor	1	-	-	-	-	1
2.	Burn and Plastic Surgery	Associate Professor	1	-	-	-	-	1
3.	Forensic Medicine & Toxicology	Additional Professor	1	-	-	-	-	1
4.	Transfusion Medicine	Associate Professor	1	-	-	1	-	-

The last date of receipt of online and offline application for all the posts of faculty remains unchanged to 24-08-2023 and 31-08-2023 respectively.

The aspiring applicants satisfying the eligibility criteria in all respects can apply for the foresaid posts by clicking the link: - <https://forms.gle/BjLW2zTbvPDx4oQj8>

All other terms and conditions shall remain the same. Detailed advertisement containing terms and conditions and application proforma can be downloaded from Institute's website <https://www.aiimsbilaspur.edu.in>

9. Incomplete/Ineligible applications will be deemed invalid and rejected without intimation to the candidate. Only the eligible candidates will be called for the written examination.

10. Application will be short listed on the basis of percentage of marks obtained in the examination for essential qualification.

11. Right to accept/reject application rests with the Board of Officer and it is further made clear that mere acceptance of application does not guarantee any appointment or any claim on the post.

12. It is made clear that merely fulfilling the basic essential qualification requirement does not automatically entitle a person to be called for test. The selection will be made strictly on the merit basis. The decision of appointing Authority regarding selection/rejection will be final. It is also made clear that numbers of posts/vacancies are tentative and recruitment process without any prior notice/assigning any reasons can be cancelled/suspended/terminated by the appointing Authority at any stage and no enquiry or correspondence will be entertained in this regard.

13. The recruitment board's decision will be final in all matters and the board will not undertake any responsibility for sending a reply to the candidates, if not selected.

14. No enquiry or correspondence for any information will be entertained.

15. **The written examination will consist of General Intelligence, General Awareness, Numerical Aptitude & General English. Skill test will be conducted only for those candidates who will get selected in merit list in the written examination (the standard of questions will be class 10th as per essential education qualification of the post).**

16. **Question Papers** The question papers of all written tests will be bilingual i.e. English & Hindi.

17. The date of written test/ skill test will be intimated to eligible candidates separately.

18. No TA/DA is admissible. Duration of each test can be 02 to 05 days or more, Candidates will make own arrangement for lodging/boarding during the test.

19. Canvassing in any form shall disqualify the candidates. No enquiry or correspondence will be entertained.

20. In the event of their failure to produce original/essential document after skill tests, the candidature is liable to be rejected.

21. Selected candidate will be given appointment letter by concerned authorities subject to verification of character and antecedents from concerned Civil Authority and medical fitness from medical authorities. The selected candidates will be on **probation for the period of two years.**

22. The candidates appointed as Multi Tasking Staff (MTS) & Civilian Motor Driver (CMD) will perform the duties as per 'Charter of Duties of Multi Tasking Staff (MTS) & Civilian Motor Driver (CMD) respectively.

23. Any dispute with regard to the recruitment will be subject to the Courts having jurisdiction in **Jabalpur (MP)** only.

24. **WARNING.** All candidates are warned to be careful from the self-styled-agents and also requested to inform the DDG Rtg, HQ Rtg Zone (MP & CG) against any malpractice seen/observed by them.

Special Recruitment Drive for ST Candidates for the post of Executive Trainee (Finance)

Grid Controller of India Limited (GRID-INDIA), a Govt. of India Enterprise, under Ministry of Power, Govt. of India, is a knowledge based organization of national importance. It is responsible for managing the power system operations - a mission critical activity, with security, economy and reliability.

To achieve this, it has adopted a multi-disciplinary approach with state of the art technology. It ensures equitable use of Transmission Infrastructure and has invested significantly in its human capital and towards strengthening the whole power system faculty. It operates the National Load Despatch Centre and the five Regional Load Despatch Centres.

To take its growth curve to further heights, GRID-INDIA is looking for Bright, Committed and Hardworking Chartered Accountants (CA) and Cost & Management Accountants (CMA) to join its fold as Executive Trainee (Finance).

A unique opportunity for research career in Science & Technology

CSIR-Indian Institute of Toxicology Research (CSIR-IITR), Lucknow, a constituent laboratory of the Council of Scientific and Industrial Research (CSIR), was established on November 4, 1965. It is the only Institute of Toxicology in the country contributing towards cutting-edge research and innovation in toxicology with the motto: "Safety to Environment and Health and Service to Industry". CSIR-IITR works on the "Institution First" policy and encourages its team members to develop mega inter- and intra-institutional projects having translational values, societal impact and institutional image building. To know more about the Institute, please visit <http://iitrindia.org> for further information.

Applications for following scientific positions are invited from enthusiastic, young Indian researchers having excellent academic record and proven scientific achievements along with requisite experience and a high degree of motivation and desire to take up research as a career in the above-mentioned areas.

The details of the positions and the respective emoluments as well as age limit as per norms are given below:

Designation	No. of Posts & Reservation	Pay Matrix Level	* Total Emoluments	** Upper Age Limit not exceeding as on last date receipt of online application.
Scientist	09 {UR = 04, PwBD = 01 (UR) SC = 02, OBC = 01, EWS = 01}	Pay Matrix Level-11	Rs. 1,15,548/-	32 years

S N.	Name of post	Nos of post	Place of Posting
1.	Senior Private Secretary Level-8 in Pay Matrix (47,600-1,51,100/-)	01 Post on deputation/ absorption basis.	NIA Hqtrs & BO Hyderabad

2. The eligibility criteria (educational qualification, experience etc.) are furnished in the enclosed **Annexure-I (available at NIA website www.nia.gov.in/ recruitment-notice.htm)**. The candidates who apply for the post will not be allowed to withdraw their candidature subsequently.

3. It is requested that the above requirement may kindly be circulated among all Departments/ Institutions/ Offices under your charge and also host on their website. The nominations of eligible officers along with following documents in **Hard Copy should reach to the SP (Adm), NIA Hqtrs, CGO Complex, Lodhi Road, New Delhi-110003 through proper channel within 45 days from the date of Publication of this item in "Employment News"**. Applications/ Documents received through mail will not be entertained as UPSC seeks original/ duly attested documents of candidates.

i) Bio-data in prescribed proforma (**Annexure-II**) (**Available in NIA website www.nia.gov.in/recruitment-notice.htm**) duly filled and countersigned by the competent authority.

ii) Supporting certificate/ documents in respect of claimed educational qualification including essential qualification of Bachelor Degree.

iii) **Cadre clearance certificate stating that 'in event of selection, he will be relieved immediately' issued by cadre controlling authority.**

iv) **Photo copies of APAR dossier from the year 2017-18 to 2021-22 duly attested** (it may be ensured that the same are attested on each pages with rubber stamp by an officer not below the rank of Under Secretary to the Government of India). Non-reporting/initiation certificate may also be furnished in case of APARs has not been reported for any broken period.

v) Vigilance Clearance Certificate and Integrity Certificate issued by the respective department.

vi) The details of major/minor penalties imposed on the officer during the last 10 years.

4. Applications received after the last date of receipt or incomplete applications in any respect or those not accompanied by the documents/ information in para 03 above will not be considered. The Cadre Authority may ascertain that the particulars sent by the officer are correct as per the records.

5. The eligibility criteria and application form as well as Recruitment Rules are also available on the NIA website (**available at NIA website www.nia.gov.in/recruitment-notice.htm**).

Government of India

Ministry of Defence**Office of the Director General**

Weapons & Electronics System Engineering Establishment (WESEE)
(WEST BLOCK-V, WING-I, GROUND FLOOR, RK PURAM, NEW DELHI-110066)

Filling up of two posts of Senior Scientific Assistant (SSA) on deputation/ re-employment basis in the Office of Director General, Weapons & Electronics System Engineering Establishment (WESEE)

1. Applications are invited in the prescribed proforma at Annexure I against two vacancies of **Senior Scientific Assistant (Group 'B' Non Gazetted)** in pay level -7 of 7th CPC Pay Matrix (corresponding to pre-revised scale of pay of Rs 6500-200-10500) in the office of the Director General Weapons & Electronics System Engineering Establishment (WESEE).

Mode of selection: By Deputation/Re-employment of Ex-servicemen.

Eligibility Conditions :-

Deputation: Officer of the Naval Headquarters/DRDO, Ministry of Defence.

(a) (i) Holding analogous post on regular basis in the parent cadre/ department; **or** (ii) With three years service in the grade rendered after appointment thereto on regular basis in the Pay Level - 6 of 7th CPC Pay Matrix (corresponding to pre-revised scale of pay of Rs 5500-175-9000) or equivalent in the parent cadre/department; **and** (b) **Possessing the following educational qualifications and experience:-**

(i) Diploma in Electrical/Electronics Engineering from a recognized university or equivalent;

(ii) Two years experience in design and development or prototype hardware or software, fabrication of such prototypes including testing and documentation.

Note: Period of deputation including period of deputation in another ex-cadre post held immediately preceding this appointment in the same or some other organization/ department of the Central Govt shall ordinarily not exceed three years. The maximum age limit for appointment by deputation shall be not exceeding 56 years as on the closing date of receipt of applications.

2. **Deputation/Re-employment (For ex-servicemen)** The Armed Forces Personnel of the rank of JCO or Equivalent in the Navy/Air Force holding posts in the equivalent rank of Electrical Artificer Mechanician Class-III and above who are due to retire or to be transferred to reserve within a period of one year and have the qualifications and experience prescribed above for deputation shall also be considered. If selected such officers will be given deputation terms upto the date on which they are due for release from the armed forces. Thereafter they may be continued on re-employment terms. In case such eligible officers have retired or have been transferred to reserve before the actual selection to the post is made, their appointment will be on re-employment basis.

Note : Re-employment upto the age of superannuation with reference to civil post. Application for the above posts be forwarded on prescribed proforma through proper channel along with copies of ACRs/APARs of the candidate for the last 5 years **within**

AIR FORCE SPORTS CONTROL BOARD

C/O AIR FORCE STATION NEW DELHI, RACE COURSE, NEW DELHI-110003

1. Induction rally for induction of sports cadets into Air Force Boys Sports Squadron (Jalahalli, Bengaluru) is being conducted from 07- 11 Aug 23.
2. **Age:** 11 -14 years as on 01 Oct 23 (Born between 01 Oct 09 to 30 Sep 12).
3. **Education:** Studying in Class 7th to 9th as on 01 Oct 23.
4. **Sports Disciplines:** Applicable only for admission in Sports disciplines of **Boxing and Wrestling** (Sportsmen achieving first three positions in the State/ National in Junior/Sub Junior Tournaments). The boys of only following Age, Height, and Weight category will be considered for selection.

Sports discipline	Age	Minimum Height	Weight	Category
BOXING	11-14 Years	153 CM	43-50 Kg	--
	11-14 Years	153 CM	58-64 Kg	--
	11-14 Years	153 CM	65-70 Kg	--
	11-14 Years	153 CM	71-75 Kg	--
WRESTLING	11-14 Years	153 CM	41-45 Kg	Free Style
	11-14 Years	153 CM	46-50 Kg	Free Style
	11-14 Years	153 CM	51-57 Kg	Free Style
	11-14 Years	153 CM	58-63 Kg	Free Style
	11-14 Years	153 CM	64-70 Kg	Free Style
	11-14 Years	153 CM	41-45 Kg	Greco Roman
	11-14 Years	153 CM	46-50 Kg	Greco Roman
	11-14 Years	153 CM	51-57 Kg	Greco Roman

Note: (a) Depending on the skill level and representation, the Competent Authority can select the boys within the prescribed age category irrespective of weight category. (b) Selection of boys will be done purely on merit, and it is not mandatory to select the boys in each weight category if suitable candidate is not found.

5. **Venue:** E&ITI Entry Gate, Air Force Station Jalahalli East, Bengaluru - 560013

6. **Induction Rally Schedule:**

Reporting time (Boxing) : 0830 hrs on 07 Aug 23
Screening of documents (Boxing) : 0830 - 1100 hrs on 07 Aug 23
Trials (Boxing) : 1100 - 1730 hrs on 07 Aug 23

0830 - 1330 hrs on 08 Aug 23
Medical Examination (Boxing) : 0700 hrs onwards on 09 Aug 23

Reporting time (Wrestling) : 0830 hrs on 09 Aug 23
Screening of documents (Wrestling) : 0830 -1100 hrs on 09 Aug 23

Trials (Wrestling) : 1100 - 1730 hrs on 09 Aug 23
0830 - 1330 hrs on 10 Aug 23

Medical Examination (Wrestling) : 0700 hrs onwards on 11 Aug 23

7. **Documents required:** Original Birth Certificate, Aadhaar Card, Academics and Sports Certificates & 04 Passport size Colour photographs.

8. **Travelling/Boarding /Lodging :** At your own arrangements (during induction rally).

9. **For Queries, contact 011-23014160 between 0900 hrs to 1730 hrs or E-mail at-bluesport.3@gov.in.**

Note : Please be aware of touts/agents. Selections are based on merit only.

Defence Research and Development Organization (DRDO) Defence Research and Development Laboratory (DRDL)

Kanchanbagh PO, Hyderabad - 500 058

Advertisement for the Award of Junior Research Fellowship (JRF)
WALK-IN INTERVIEW ON 8th AUG & 10th AUG 2023

VENUE : DLOMI, DRDO TOWNSHIP, KANCHANBAGH, HYDERABAD

Defence Research and Development Laboratory (DRDL), Hyderabad, one of the Premier Research Laboratories of Defence Research and Development Organization (DRDO) engaged in Research & Development of Missile Systems for Indian Armed Forces. DRDL invites applications from young and meritorious Indian Nationals, who desire to pursue Defence related research as Junior Research Fellow (JRF).

S. No.	Fellowship	Subject/ Discipline	Tentative No. of Vacancies	Essential Educational Qualifications
1.	Junior Research Fellow (JRF-01)	Mechanical Engineering	06	B.Tech./B.E with First Class in Mechanical Engg. from UGC recognized University with GATE valid score (Paper code: ME) (or) M.E/M.Tech with First Class in Mechanical Engg. from UGC recognized University and B.Tech/B.E (Mechanical Engg.) with First Class from UGC recognized University.
2.	Junior Research Fellow (JRF-02)	Electrical & Electronics Engineering/ Electronics & Communication Engineering	02	B. Tech./B.E with First Class in Electrical & Electronics Engg./Electronics & Communication Engg. from UGC recognized University with GATE valid score (Paper code: EE/EC) (or) M.E/M.Tech with First Class in Electrical & Electronics Engg./Electronics & Communication Engg. from UGC recognized University and B.Tech/ B.E (EEE/ECE) with First Class from UGC recognized University.
3.	Junior Research Fellow (JRF-03)	Aeronautical/ Aerospace Engineering	02	B.Tech./B.E with First Class in Aeronautical/Aerospace Engg. from UGC recognized University with GATE valid score (Paper code: AE) (or) M.E/M.Tech with First Class in Aeronautical/ Aerospace Engg. from UGC recognized University and B.Tech/ B.E (Aeronautical/ Aerospace Engg.) with First Class from UGC recognized University.

Stipend (Monthly): JRF will receive a stipend of Rs.31,000/- plus HRA as per DRDO Rules.

JRF Tenure: Initially the offer is for a period of two years which may be extendable for further two years subject to Internal Screening Committee recommendations.

Medical benefits: The medical facilities, for self only, available in DRDO will be extended through MI Room.

Age Limit: The upper age limit is maximum of 28 years as on the closing date of interview/advertisement. The upper age limit shall be relaxable to the candidates belonging to SC/ST is 5 years and OBC is 3 years.

Application Procedure: Eligible candidates may bring their duly completed applications as per given format which can be downloaded from www.drdo.gov.in. Candidates should write in bold letters 'APPLICATION FOR JRF RECRUITMENT' on TOP of the envelope cover.

- The filled application should be brought with self attested copies of Date of birth Certificate, Degree/Provisional Certificate along with Marks Memos, GATE score card, Caste Certificate, NOC & other testimonials. **Copies of GATE Score Card, B.Tech/M.Tech marks memos are compulsorily enclosed to the application form.**
- The candidate must submit the supporting document for **converting CGPA/CPI to equivalent percentage (%) from concerned University.**
- Incomplete applications are liable to be rejected.

Selection Process:

- Eligible candidates will be shortlisted based on valid GATE score and percentage of marks obtained in minimum qualifying degree.
- GATE paper and subject of qualifying degree must be related to the subject/discipline against which the candidate is applying.
- Candidates serving in Govt. or in Govt. owned organization will be required to produce "NOC" from their respective Department/Employer at the time of interview failing which the candidate will not be allowed to appear for the interview or they should apply through proper channel.
- Working experience in the area of subject will be preferred.

Date & Venue of Walk-In Interview: on 8th AUG 2023 for [JRF-01] & 10th AUG 2023 for others [JRF-02 AND JRF-03]

Venue: DLOMI, DRDO TOWNSHIP, KANCHANBAGH, HYDERABAD

Reporting Time : From 0900 Hrs. to 0930 Hrs. [Candidates coming after Reporting time will not be considered for Interview]

Important Instructions:

- Only those candidates who have been awarded Degree/Provisional Certificate are eligible to apply.
- Candidates should make their own arrangement for their stay and transport in Hyderabad. They should plan to stay for one more day if requirement arises due to more number of candidates attending the Walk - In - Interview.
- Candidates need to produce Original Certificates/Testimonial for proof of Caste, Age, Educational Qualifications and No Objection Certificate (wherever applicable), along with two passport size photographs at the time of interview.
- It may please be noted that offer of Fellowship will under no circumstances confer on candidates any right of absorption in DRDO.
- Award of Fellowship shall not be claimed by any candidate as a matter of right. It shall be entirely at the discretion of the Selection Committee of the Lab, which may refuse to admit any candidate without assigning any reason thereof.

Continued from page 1

Promoting Alternative Fertilizers, Empowering Indian ...

to ensure that farmers have access to fertilizers at reasonable prices in the future?

A: It is noteworthy that the government led by Prime Minister Shri Narendra Modi has not raised fertilizer prices in the past nine years. In contrast, international prices of Urea continued to rise. At one time, it reached as high as US\$ 950 per metric tonne. At this rate, one bag (45 kg) of Urea came at the cost of at least Rs. 4000. Whereas, the government provided the farmers the same Urea at the price of Rs. 266 per bag with a subsidy of more than Rs. 3700. Similarly, the cost of DAP (Diammonium Phosphate) also shot up to Rs. 4000 per bag. But we provided the same to the farmers at Rs. 1350 per bag with a subsidy of more than Rs. 2500. We did not leave the farmers to bear the brunt of such price rise. Hence, we have adopted a two-pronged strategy of ensuring the farmers continue to get the conventional fertilizers at reasonable rates while simultaneously creating awareness among the farmers to use alternative fertilizers. As part of this effort, we introduced The Neem-Coated Urea, Nano Urea, And Sulphur-Coated Urea, which are all alternative fertilizers. PROM (Phosphorous Rich Organic Manure) was also introduced. PROM is derived by making the slurry (by-product of CNG) phosphorous rich. The Indian Agricultural Research Institute conducts studies on all of these alternative fertilizers and brings them to the market if found fit. Today, alternate fertilizers are sufficiently available in the market. We are also equally focusing on running a successful information campaign to encourage the farming community to reduce the use of chemical fertilizers.

Q: What efforts are being made to increase urea production in the country? Additionally, what is the target year of achieving self-sufficiency in urea production?

A: Under the leadership of our Prime Minister Shri Narendra Modi, the country continues to advance towards *Atmanirbharta* (self-reliance). At present, India's annual urea requirement stands at an average of 350 lakh metric tonne per annum. Upon assuming office in 2014, our government inherited a scenario where the country produced a mere 235-240 lakh metric tonne of urea, necessitating the import of almost 90 lakh metric tonne. To rectify this situation, we set a goal to eliminate urea imports by

2026. Now, the question was, how do we do this? We devised a strategy to reduce the farmers' dependence of Urea. Over the past seven years, we have successfully established/revived a total of six fertilizer plants (Chambal, Matix, Ramagundam, Gorakhpur, Sindri, and Barauni), with the seventh plant nearing completion. Each plant boasts a capacity of at least 13 lakh metric tonne per annum. Therefore, we have already created a production capacity of 70-80 lakh metric tonne of Urea. Simultaneously, we introduced alternative varieties of Urea like Nano, Sulphur Coated and Neem Coated Urea to gradually replaced conventional Urea, thus reducing the need for imports. At this pace, we hope to completely do away with Urea imports by 2026 end.

Q: How does the PM-PRANAM scheme contribute to reducing the excessive use of chemical fertilizers and mitigating the negative impact on soil quality?

A: The deteriorating health of our soil resonates with our concerns, and as the Health Minister, I draw an analogy between our personal well-being and the soil's vitality. In parallel to our own well-being, soil health has been compromised due to the excessive and imbalanced use of fertilizers, resulting in adverse reactions. Allow me to illustrate this with an example from Punjab, where crop yield witnessed a decline of 17% between 2017-18 and 2022-23. During the same period, the consumption of chemical fertilizers increased by 10% leading to excess use of fertilizers. Consequently, widespread crop failures ensued in the region and various other regions having similar trends in fertilizer consumption. To address such issues, we have launched the PM-PRANAM scheme under which the central government unequivocally emphasises the need to curtail the use of chemical fertilizers. However, it is not enough for only the centre to take such initiatives. Ultimately, it is the states that must undertake the necessary actions, for it is within their jurisdiction where farmers reside. Collaborative efforts between the central and state governments are essential to achieve a substantial reduction in chemical fertilizer usage. We have urged states to actively minimise their dependency on chemical fertilizers. For instance, Gujarat, which previously consumed 30 lakh metric tonne of chemical fertilizers, has embraced

alternative fertilizers and encouraged natural farming practices. Consequently, they have effectively reduced chemical fertilizer consumption by 5 lakh metric tonne. Gujarat can save upto Rs. 4000 crore in fertilizers subsidy. Out of this, we will pass on 50% of the amount (Rs. 2000 crore) to the state government. The state can utilize the amount for promoting alternative fertilizers, agriculture extension programmes, as well as other developmental activities. Additionally, we have established 128,000 PM Kisan Samridhi Kendras (PMKSK) which serve as hubs offering various kinds of services to the farmers including the supply of fertilizers, pesticides, and organic alternatives. Additionally, farmers can have their soil tested at these centres. Every government scheme for farmers is diligently implemented by the PMKSK while playing a crucial role in generating public awareness about such schemes. Moreover, we have linked these centers with Agricultural Universities and Agricultural Science Centers, where scientists and farmers interact and foster collaborations for positive changes. With the implementation of the PM-PRANAM scheme, we are confident in our ability to control the consumption of chemical fertilizers and safeguard soil health. Agriculture Ministers from state governments have expressed their appreciation for PM-PRANAM during meetings, pledging their support to reduce chemical fertilizer usage throughout the country.

Q: How does the recently announced Market Development Assistance Scheme contribute towards increasing farmers' income while encouraging alternative fertilizers?

A: The Market Assistance Development Scheme is mainly aimed at provided additional income to farmers. Other than cultivation of crops, the farming community also engages in livestock farming. The dung generated from their livestock can also fetch good price. However, to facilitate the farmers to sell dung and earn extra income, large-scale bio gas plants have to be set up in their locality. The biogas can be converted into Compressed Natural Gas (CNG) and sold to gas companies. Moreover, the residue called "slurry," which acts as an organic fertilizer, can be converted into a product known as PROM (Phosphate Rich Organic Manures) and made available in the market as an alternative fertilizer. To facilitate the marketing of this product, we have introduced the Market Development

Assistance Scheme that provides for a subsidy of Rs. 1500 per metric tonne of PROM. Secondly, this scheme will help in making the GOBARdhan plants more viable. While farmers will be able to earn extra income, they will also benefit from the availability of green fertilizer. Moreover, there will be more production of green gas. Therefore, the scheme has multiple benefits. Therefore, we encourage state governments to utilize this scheme for reaping such multiple benefits. We have already announced the establishments of 500 GOBARdhan plants in the recent budget and in making such plants viable and sustainable, the Market Development Assistance Scheme will play a major role.

Q: IFFCO (Indian Farmers Fertiliser Cooperative Limited) has recently made a deal with an American company for exporting Nano Liquid Urea. How will the future export of Nano Urea contribute to establishing India as a vital component in the global fertilizer supply chain?

A: This is an extremely significant subject. Nano Urea is an outcome of Indian research, and it is manufactured by Indian companies. Apart from IFFCO, another company has conducted research and commenced its manufacturing. Currently, the production capacity of these plants is 17 crore bottles per year. By the end of 2025, nine more plants will be established, raising the capacity to 44 crore bottles. The distinctive feature of Nano Urea lies in the fact that a bag of urea is converted into a 500 ml liquid bottle. The liquid form has to be simply sprayed on crops. Moreover, the liquid form is absorbed 80% by the crops as compared to 30% absorption rate of conventional Urea. The unabsorbed conventional Urea is released into the soil and air, polluting the environment. Therefore, the liquid Nano Urea is more efficient, environment friendly, easy to use and cost effective. This product is the pride of India as it has not only gained traction inside the country but also worldwide. Several countries, including the United States, have expressed interest in its import. As and when Nano Urea will be available in excess in the country, export permissions will be granted. This will not only benefit India but also enable the world to reap the advantages of green fertilizers.

(Interviewed by Employment News team)

Continued from page 3

Job Opportunities in Sustainable Fertilizer Practices

accurately blending nutrient compositions and fertilizing vast areas. Robotics experts develop and deploy intelligent systems that can interpret data, make informed decisions, and autonomously carry out fertilizer application tasks. They work on projects such as robotic fertilizer spreaders, autonomous drones for aerial application, and robotic systems for precise injection of nutrients into the soil. Artificial intelligence becomes a crucial component in creating a smarter and more efficient fertilizer production and distribution ecosystem. Robotics professionals collaborate with agronomists and engineers to develop reliable and safe automation technologies that optimise resource utilisation and improve the overall efficiency of fertilizer application.

Supply Chain Management

Professionals specialising in logistics and supply chain management are presented with exceptional career prospects in the implementation of schemes that promote sustainable agriculture and the utilisation of alternative fertilizers. These schemes involve the establishment of bio gas units, which will procure manure from farmers. The units will then process the manure to produce both biogas for supply to gas companies and byproducts for manufacturing fertilizer. In this context, logistics and supply chain management professionals play a critical role in optimising and managing complex supply chains. They will be responsible for ensuring efficient procurement and distribution processes for the bio-based

products. Additionally, they will oversee compliance with regulatory standards, implement sustainable practices throughout the supply chain, and leverage data analytics and advanced technologies to enhance operational efficiency. These lucrative opportunities not only enable professionals to make a significant environmental impact but also contribute to agricultural sustainability and meet the increasing demand for eco-conscious practices in the logistics and supply chain management industry.

The food security debate has become increasingly prominent in recent years, highlighting the urgent need to ensure a sustainable and abundant food supply for the growing global population. As a result, the growth of fertilizer companies and the development of alternative fertilizers have become crucial factors in addressing this challenge. Fertilizers play a vital role in

enhancing crop productivity by replenishing essential nutrients in the soil. With the increasing demand for food, the agriculture sector requires more efficient and eco-friendly fertilizers to maximise yields. This demand creates significant opportunities for fertilizer companies to innovate and expand their operations. Additionally, the expansion of this sector will contribute to the generation of employment opportunities, as the production, distribution, and application of fertilizers require a skilled workforce. As the necessity for global food security intensifies, the capacity for employment generation in the fertilizer industry is poised to increase further.

I/C. Administrative Officer

**BEST ENTRY FOR**

ISSUE DATED 1 - 7 July 2023

Question: AI is the future of the world. It has opened up new avenues for people across sectors and has made the lives of people easier. How do you utilise the benefits offered by AI in your daily life?

Amardeep Shukla
Uttar Pradesh

AI is the future of the world. It has already started to change our lives in many ways, and the benefits of AI will only become more widespread in the years to come.

I am utilising the benefits of AI in my daily life in a few different ways. First, I use AI-powered tools to help me with my work. I use Grammarly to help me write better content. Grammarly uses AI to identify and correct errors in my writing. These tools help me to be more productive and efficient in my work.

Second, I use AI-powered tools to help me with my personal life. I use Netflix's recommendation engine to find new movies and TV shows to watch. Netflix's recommendation engine uses AI to track my viewing habits and to recommend content that I might be interested in. Here are some specific examples of how I engage with AI in my daily life:

I use Google Search to find information and

complete tasks. Google Search uses AI to power its features like auto-complete, personalised results, and voice search.

I use Google Maps to navigate and find places. Google Map uses AI to power its features like traffic updates, live views, and suggested routes.

I use Gmail to send and receive email. Gmail uses AI to power its features like spam filtering, smart reply, and personalised suggestions.

I use Google Assistant to control my smart devices and get information. Google Assistant uses AI to understand my voice and respond to my requests.

I use Amazon's Alexa to control my smart home devices. Alexa uses AI to understand my voice commands and to control my devices accordingly.

These are just a few examples of how I engage with AI in my daily life. As AI continues to develop, I am excited to see how it will become even more integrated into our lives.

Employment News

Question of the Week

World Nature Conservation Day is observed on 28 July every year to recognise that a healthy environment is a foundation for a stable and productive society and for future generations. In his recent episode of 'Mann ki Baat', Prime Minister Shri Narendra Modi also talked about the Miyawaki plantation technique, one of the many innovative and unique ways to conserve nature. Are you aware of any such innovative techniques or rituals that are helping in nature conservation or have been used by the people of our country? Let us know.

News Digest

NATIONAL

France bestows the highest French honour on Prime Minister Shri Narendra Modi

France has bestowed the 'Grand Cross of the Legion of Honour' on Prime Minister Shri Narendra Modi, making him the first ever Indian to receive the highest French honour in military or civilian orders. During his visit to France on 13-14 July Prime Minister Shri Modi, participated as the Chief Guest at the Bastille Day military parade and met with French President Mr Emmanuel Macron, other leaders in the French government, and prominent businessmen. The leaders discussed furthering cooperation in various areas such as economic and trade, energy, environment, education, mobility, railways, digital public infrastructure, museology and people to people ties. In a major boost to the market expansion of India's Unified Payments Interface (UPI), New Delhi and Paris agreed to use the flagship instant payment system in France.

DAC Approves Procurement of 26 Rafale Marine Aircraft from France

The Defence Acquisition Council (DAC) has approved a proposal for the procurement of 26 Rafale Marine aircraft from France to boost Indian Navy's operational capabilities. This has set the ball rolling for negotiations on an Inter-Governmental Agreement that would facilitate the Indian Navy to procure the aircraft along with associated ancillary equipment, weapons, spares, crew training and logistic support. The Defence Acquisition Council also granted approval for the procurement of three additional Scorpene submarines under the Buy (Indian) category which will be constructed by Mazagon Dock Shipbuilders Limited. The purchases will not only help in maintaining the operational readiness of the Indian Navy but also create significant employment opportunities.

Chandrayaan-3 Launched Successfully

ISRO successfully launched a 642-tonne heavy lift rocket LVM3 carrying Chandrayaan - 3 satellite from Sriharikota on July 14. India's yet another historical mission to the moon began after the completion of the three launch stages of take off. Hailing the relentless dedication of India's scientists on the launch of Chandrayaan-3, the Prime Minister, Shri Narendra Modi tweeted, "Chandrayaan-3 scripts a new chapter in India's space odyssey. It soars high, elevating the dreams and ambitions of every Indian. This momentous achievement is a testament to our scientists' relentless dedication. I salute their spirit and ingenuity!"

India Launches Indigenous Navigation Satellite System to Bolster Maritime Safety

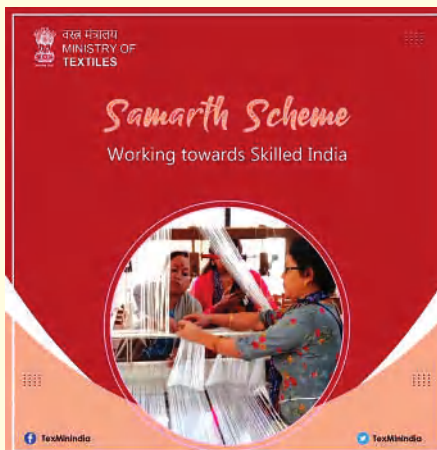

The Ministry of Ports, Shipping, and Waterways, has inaugurated the indigenous Differential Global Navigation Satellite System (DGNSS) 'Sagar Sampark'. It is a terrestrial-based enhancement system which aims to address errors and inaccuracies in the Global Navigation Satellite System (GNSS), thereby providing more precise positioning information. The DGNSS will be installed at six locations under the Directorate General of Lighthouses and Lightships (DGLL) to enhance their capabilities in the field of radio aids to marine navigation. This initiative will strengthen navigational safety, particularly in light of the significant increase in shipping volume in recent times.

Centre Releases Rs. 7532 Crore to State Governments for Immediate Disaster Response

The Department of Expenditure, Ministry of Finance, has announced the release of Rs. 7,532 crore to 22 State Governments for their respective State Disaster Response Funds. The funds have been allocated as immediate aid to the states, bypassing the requirement of utilization certificates for the amount provided in the previous financial year. This decision comes in the wake of heavy rainfall and the need for swift action to address the resulting challenges across the country.

SAMARTH Scheme Onboards 43 New Skill Training Partners

The Empowered Committee for Scheme for Capacity Building in the Textiles Sector (SAMARTH) has onboarded 43 new implementing partners to broaden the reach and effectiveness of the scheme's skill training initiatives. This will facilitate additional training of approximately 75,000 beneficiaries in essential skills required by the ever-expanding textile sector. SAMARTH is a demand-driven and placement-oriented umbrella skilling program formulated by the Ministry of Textiles. Under the scheme, training has already been provided to 1.88 lakh individuals and over 70% of those trained have secured placements, according to the Ministry of Textiles.

Hindustan Aeronautics Limited Sets Up Regional Office in Malaysia

Defence Minister Shri Rajnath Singh inaugurated the Regional Office of Hindustan

Aeronautics Limited (HAL) in Malaysia on 11 July. The HAL Regional Office will not only strengthen defence ties between India and Malaysia but also serve as a central hub for HAL's engagement with the broader South-East Asian region. This strategic location positions the office as a window for other Indian Defence Public Sector Undertakings as well. It is expected to catalyze greater collaboration in areas such as technology transfer, joint research and development, and production of defence equipment.

INTERNATIONAL

India, Bangladesh Commence Trade Transactions in Indian Rupee

India and Bangladesh have begun trading with each other using the Indian Rupee. This new trade arrangement was officially launched on 11 July at an event in Dhaka, jointly organised by the Bangladesh Bank and the High Commission of India. The Eastern Bank and Sonali Bank Ltd will handle trade and transactions from the Bangladesh side, while the State Bank of India and ICICI Bank will manage operations from the Indian side. The Reserve Bank of India has already authorised banks from 18 other countries, including Germany, Russia, Singapore, Sri Lanka, the United Kingdom, Myanmar, and Oman, to engage in trade using the Indian Rupee.

IMF Approves \$3 Billion Bailout Package for Pakistan

The International Monetary Fund has approved a financial package of \$3 billion to help Pakistan. Initially, Pakistan will receive about \$1.2 billion, and the remaining amount will be paid out over the next nine months. News reports also mention that Pakistan received financial assistance from Saudi Arabia and the United Arab Emirates. Pakistan is facing a critical situation where it is unable to repay its debts to creditors. Local media reported that the cost of living in Pakistan has been rising rapidly, with an official annual inflation rate of nearly 30 percent.

ECONOMY

Cancer-Fighting Drugs, Medicines for Rare Diseases Exempted From GST

The GST Council has decided to exempt cancer-fighting drugs, medicines for rare diseases, and food products for special medical purposes from the GST regime. The Council has also decided to exempt GST of satellite launch services by private operators. This was announced by Union Finance Minister Smt. Nirmala Sitharaman after chairing the 50th GST Council meeting in New Delhi on July 11. The Finance Minister also announced that 28 percent tax will be levied on online gaming, horse racing, and casinos.

Special Squads to Take Stringent Action against Spurious Drugs Manufacturing

The Ministry of Chemicals and Fertilizers has directed the Drugs Controller General of India to take stringent action against all pharmaceutical manufacturing companies that make spurious drugs. The Ministry has already deployed special squads to inspect drug manufacturing companies and recommended action against defaulters. Till June end, 137 firms were inspected, and action taken against 105 firms. Production has been stopped at 31 firms, and cancellation and suspension of products have been issued against 50 firms.

SPORTS

India Finish with 9 medals at World Deaf Youth Badminton Championships

India ended their campaign in the 3rd World Deaf Youth Badminton Championship on a successful note, winning nine medals in the event held in Para de Minas, a municipality town in Brazil. Aaditya in Girl's Singles, Piyush and Shreya in Mixed Doubles, Soumyadeep and Piyush in Men's Doubles and Jerlin and Aaditya in Women's Doubles won the silver medals. Soumyadeep in Men's Singles, Jerlin in Women's Singles, Shreya in Women's Singles, Soumyadeep and Gauranshi in Mixed Doubles and Gauranshi and Shreya in Women's Doubles finished the event with bronze medals.
